Art Unit: 1636

This application is in condition for allowance except for the following formal matters:

1) At page 18 of the specification, at paragraph 56 (as numbered in the margin), an amino acid sequence appears, "ValGlyGlyCys". However, there is no embedded sequence identifier for this sequence. It would appear that this sequence is found within several of the sequences disclosed on the sequence listing: SEQ ID NOS:5, 6, 12, 16 and 18. Thus, for example, the sequence identifier "(SEQ ID NO:5, positions 45-48) would, if added by amendment, bring the disclosure into full compliance with the sequence rules.

2) The disclosure is objected to because it contains an embedded hyperlink and/or other form of browser-executable code. Applicant is required to delete the embedded hyperlink and/or other form of browser-executable code. See MPEP § 608.01. Page 61, paragraph 172 contains the hyperlink.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
